SUPPORT TO OUR
NATION'S WARFIGHTERS.

KANSAS AIR NATIONAL GUARD
184TH INTELLIGENCE WING
McCONNELL AFB / WICHITA, KANSAS

WWW.NEWINTELMISSION.COM

FROM OUR PROUD PAST TO YOUR BRIGHT FUTURE

The 184th Intelligence Wing has a proud history and a wealth of tradition. The unit was activated the first time to Federal service in 1941 during WWII, then again for the Korean Conflict, and again for the Viet-Nam Conflict.

In April 2008, the 184th Air Refueling Wing, flying the KC-135R tanker since 2002, was re-designated the 184th Intelligence Wing with a new mission, making it the first Intelligence Wing in the Air National Guard.

Welcome

KANSAS AIR NATIONAL GUARD

Congratulations on your decision to find out more about joining the Kansas Air National Guard and all the great benefits that come with it!

You may be a high school senior or a college student exploring the options for your future, or you may be a prior service member who misses the pride that comes from being among the best.

You may just be someone with no idea what their future plans are, it doesn't really matter where you're at, we may be able to help you.

We have assembled this packet to provide you with basic information about the Kansas Air Guard. You may have questions about the types of college financial benefits we offer, jobs we currently have avail-

able or maybe what Air Force Basic Military Training is like. We are here to help you with these topics and questions you may have about the enlistment process.

Seniors, you should know that you can start the qualification process at age 17, with parental consent, and actually enlist as a senior in high school. This allows you to work with us one weekend a month and get paid before you graduate.

When can an interested individual start the qualification process and enlist?

You can start the process between the ages of 17 and 35 years of age. Once you are qualified, having passed the Armed Services Vocational Aptitude Battery (ASVAB) and Physical, and have picked out a job, you can enlist. Once enlisted you will work with us one weekend a month (and get paid) until you attend Basic Training. Seniors in high school can start the qualification process if they are 17 and have their parental consent. For high school students, enlisting during your senior year helps you get Basic Training and Tech School dates that start shortly after graduation.

Questions? Contact a Kansas Air National Guard Recruiter.

The World has Changed.

The Kansas Air National Guard has changed to meet the challenge.

Welcome to the 184th Intelligence Wing at McConnell Air Force Base, the very first intelligence wing of the Air National Guard. We provide 24/7 support to troops around the world, and we do it with part-time guard members.

Federal Mission - Serving a Nation at War

Information Operations provides network security for the entire Air National Guard, real-time imagery analysis, vulnerability assessments, air control, and a joint forces training range.

State Mission - Supporting Civil Authority

"We arrived to utter devastation" said Master Sgt. Frank Cook, one of the first-wave responders with the 184th Security Forces Squadron, 184th Air Refueling Wing. "We worked to make a difference and protect what little property these people have left."

-Greensburg Kansas, May 2007

The 184th responds to natural disasters in 19 nearby counties. We provide communications, security, medical, civil engineer, chaplain, and chem/bio expertise to affected communities.

Partnership for Peace with Armenia.

Kansas Supports the U.S. program to assist former Soviet-bloc nations in their transition to democracy by providing military-to-military contacts.

Community Mission - Adding Value to Our Community

Teaching math and science skills at Kansas STARBASE Academies.

Kansas Guardsmen teach math & science to 4th, 5th, and 6th grade students during two week STARBASE academies throughout the state. Working with nearly 41,000 Kansas girls and boys, we teach them skills to help improve their interest in the areas of math, science or technology as well as instilling a sense of pride and personal accomplishment.

The Kansas Air National Guard 184th Intelligence Wing is committed to conducting its mission in an environ-

mentally responsible manner that will protect human health, natural resources, and the environment to ensure sustainability. This commitment goes beyond compliance with the law and encompasses the integration of sound environmental practices into our daily decisions and activities. We have in the past, and will continue in the future, to pursue a course of responsible environmental stewardship.

What commitment is expected from Air Guard members?

For new Air Guard members, the commitment involves working one weekend a month and a few weeks a year at a minimum for a period of 6 years. You must attend Basic Military Training (BMT) at Lackland AFB in Texas for 8 weeks, followed by Technical School for the career field you have chosen. Tech schools range in length from 6 to 52 weeks, depending on the job.

What type of jobs are available at the 184th?

Cyber warfare, Intelligence, Information Technology just to name a few! We also have jobs in ground radar systems, satellite wideband communications, network, switching and crypto systems. We have a wide variety of Civil Engineering positions to include: carpenters,

heating, ventilation, air conditioning, waste water utilities, electricians, power generator specialists, and heavy equipment operators. In addition to that, we also have Security Forces jobs (law enforcement).

Where will I work?

One of the primary benefits of joining the Air Guard is being part of your hometown Air Force. Ordinarily, you would join the unit closest to where you live, and after the initial training you would return to begin working one weekend a month and a few weeks a year from that location. On occasion, typically during the annual training periods (two to three weeks a year), units try to travel to varied locations to complete a more comprehensive training program. When this occurs, all of our members are provided transportation to and from that location as well as room and board.

The 184th Intelligence Wing is located on McConnell Air Force Base, Wichita Kansas with a detachment at Smoky Hill bombing range in Salina Kansas. All of our members are assigned to these

two locations. The Air National Guard is unique this way, in that each base is responsible for hiring its own people. If you wanted to be a member of the Air Guard in another state you would have to speak with a representative from that state.

Is it true? Part time work, good pay and full time benefits?

Yes! Keep your regular full time job or college schedule. You will find a part-time job that can offer you a full time challenge plus excellent benefits and opportunities. Get paid for four days while working just two days a month.

For example, as of January 2008, working just one Drill Weekend per month, on a Saturday and Sunday, you can expect to earn between \$178 and \$210 to start, depending on your rank. It gets better from there as you progress in rank and time in service.

And there are other opportunities to make even more money. For example, you could earn up to \$2000 by referring the KSANG to your friends who might benefit from joining the Guard through the Guard Recruiting Assistance Program, or "G-RAP". G-RAP is a contracted program designed for individuals who voluntarily apply to become eligible to serve as a part time recruiter assistant.

College Tuition Assistance

KANSAS AIR NATIONAL GUARD

The Kansas Tuition Assistance Program

The Kansas Tuition Assistance program offers tuition assistance for Kansas residents attending approved Kansas vocational schools, community colleges and four-year universities. The amount of the tuition assistance varies from semester to semester. The varying rate is based on the amount of money allocated by the state and the number of people who apply to use the program. Over the past couple years, we have paid between 80% and 90% of tuition costs for Guard members.

Additional assistance is provided by the Montgomery GI Bill administered by the

Veterans Administration, essentially a monthly allowance for individuals who are taking college classes. The amount of the benefit is pro-rated to the number of credit hours an individual is taking. Currently, full-time students (12 or more credits) receive \$329 / month *. You also may qualify for other benefits such as a \$20,000 * Non-Prior Service Enlist-

What other benefits may I be eligible for?

Base Exchange & Commissary Privileges - Air Guard members are authorized unlimited use of the Base Exchange. The Base Exchange is like a combination between a discount store &

"All totaled, if you are eligible to use all of your benefits – you could be receiving well over \$50,000 for college vs. paying off student loans for years."

ment Bonus, \$20,000 * Student Loan Repayment Plan and the GI Bill Kicker (\$350/month *) which are available with select jobs. And if you are Prior Service, there may be an opportunity for you to receive a special bonus as well. You will also earn college credits while attending Basic Military Training (BMT), Tech School and leadership training courses throughout your ANG career through the Community College of the Air Force.

a department store except it's tax-free. The Commissary is a military grocery store offering specially discounted prices to military members and offers significant savings over other grocery retailers and it's tax free!

Health Insurance - TRICARE Reserve Select (TRS) is a premium-based health plan for qualified members and

Page 4

Air National Guard Financial Assistance Per Four-Month Semester

State Tuition Assistance Program: \$2763.20*

Tuition assistance is a varying amount each semester that is paid directly to the school to pay a student's tuition bill. The amount of benefit will vary depending on how much money was funded into the program by the state and how many guardsmen are participating in the program. This program works with over 60 four-year, two-year and vo-tech institutions in the State of Kansas. This benefit only applies to Kansas Residents. *Maximum payout of this program during Fall 2008 Semester.

Montgomery GI Bill: \$1316.00*

Cash allowance sent direct deposit to student each month while they are attending college classes. \$329 / month* during four-month semester. **YOU MUST BE ATTENDING COLLEGE CLASSES TO RECEIVE THIS MONEY.**

Montgomery GI Bill KICKER: \$1400.00*

Additional cash allowance paid for most Air Guard career fields. \$350/month during four-month semester. The KICKER works in conjunction with the GI Bill. Using the two benefits together will net a student \$679.00*/month. And just like the GI Bill... **YOU MUST BE ATTENDING COLLEGE CLASSES TO RECEIVE THIS MONEY.**

Drill Pay: \$840.00*

Guardsmen work 7:30AM to 4:00PM for one weekend (Saturday & Sunday) each month. Starting drill pay for most guardsmen is at the rank of Airman First Class (Enlisted Grade - 3) for \$210. Figuring four-month semester times \$210/month.

POTENTIAL COLLEGE FINANCIAL ASSISTANCE PROVIDED BY THE KANSAS AIR NATIONAL GUARD PER SEMESTER:

\$6,319.20*

Note that the assistance figure listed is above and beyond any payouts from an enlistment bonus (\$20,000 for certain career fields) OR payouts from our \$20,000 student loan repay program. For more information check out our web site at www.newintelmission.com and www.goang.com * **Amounts are subject to change.**

their family and is available to Air Guard members at competitive rates. Full time coverage / part time employment. For more information visit www.tricare.mil

Life Insurance - \$400,000.00 term life insurance. Coverage is 365 days a year, for \$29.00 a month. Under Family Servicemen Group Life Insurance (FS-GLI), your dependents can also receive coverage at a discounted rate.

Extended Training - Excellent training is available in a variety of skills and the Air Force Technical Training Centers are where you'll gain valuable knowledge as well as accredited college hours. Back home with the Air

Guard, you'll continue to upgrade your training and job proficiency.

Leadership Training - Air Guard members may attend Leadership Schools, Non Commissioned Officer Academies and take correspondence courses to sharpen your leadership and management abilities. These talents can give you that competitive edge needed in today's business world.

Retirement - Stay in the Guard for 20 or more years and you can receive retirement pay and benefits.

Make new and interesting friends - The Air Guard offers new social networking opportunities. You will make friends with many new people

with similar interests.

Job Satisfaction - Perhaps the most satisfying benefit is knowing you're an important part of the Total Force that is "Guarding America, Defending Freedom"

Ok, you have my attention. How do I enlist in the Guard?

There are several easy steps in the process to enlist with the Air National Guard. If you are interested in joining the Air Guard, having never served before, you must be between the ages of 17 and 34, pass a pre-screening interview, then participate in a written and physical exam to start. Qualified individuals will then go through a skill selection process, swear an Oath of Enlistment, attend a drill weekend, receive basic military training and attend tech school.

If you have previous military experience the process may be a little different. For example, prior service may be exempt from Basic and Tech school. Please ask your recruiter for details. New to the military? Here's what to expect:

1 The Interview -The process starts with an initial interview with an Air National Guard recruiter before you can actually join the Guard. The recruiter will pre-screen the individual by asking qualified questions. You can only have limited law violations and must pass a background check. If the individual meets pre-screen requirements, then the ASVAB exam and physical can be scheduled.

2 The ASVAB Exam - Is a written exam given to everyone who enters any branch of the military. The Air National Guard uses your scores to determine your abilities in the following areas: Mechanical, Administration, General Knowledge, and Electronics. This is usually done in conjunction with your physical and will mean an overnight stay in Kansas City at no expense to you.

3 The Physical - All applicants must take a military physical examination at the Military Entrance Processing Station (MEPS) in Kansas City to ensure you qualify for military duty. During the physical you will be asked to provide your complete medical history. This is usually done in conjunction with your ASVAB and will mean an overnight stay in Kansas City at no expense to you.

4. The Skill Selection Process - Once you complete and pass the pre-

screening process and are determined eligible to join, your recruiter uses your preferences, ASVAB scores and physical profile to help compile a list of jobs that are vacant AND that you qualify for. With this list you will choose the top 2 career fields that interest you. We then set up an interview with the section supervisor(s) of the careers you picked, who will show you around the shop and explain the job in detail. This is your opportunity to ask questions about the jobs you are interested in, get to know the people and the surroundings.

Once a job is selected, you will be scheduled to enlist. Congratulations! This is the point where your membership in the Air Guard begins. Note that everything prior to swearing in is just preliminary processing and does not obligate you to join.

5 The Oath of Enlistment - Once the applicant has picked out a job then a recruiter will complete the applicant's enlistment packet. This includes asking the applicant to provide items such as a driver's license, birth certificate, social

security card, high school diploma or GED, security clearance worksheet, parental consent form, etc. On enlistment day you are welcome to invite family and friends to witness you being sworn into duty by one of our officers. This is the final step in becoming a member of the Air National Guard.

After swearing the Oath of Enlistment, what happens then?

You will attend Guard Drill Weekend, Basic Military Training and Tech School. Upon enlistment you will start attending Guard Drill Weekends. Your Basic Training and Tech School dates will be requested from the Air Force. Typically you will go to Basic Training within a few months of enlisting and tech school following. Some exceptions are made because of scheduling conflicts with the Air Force schools.

(Continued on the next page)

Joining the Guard

KANSAS AIR NATIONAL GUARD

The Tech School

Tech School classes are conducted in a college-type atmosphere. You will stay in a dorm with a roommate or two. You will attend classes for the number of weeks required by your job selection.

Tech School lengths vary from 5 to 52+ weeks. You will be tested on the material you have learned and upon completion, you will graduate and return to McConnell Air Force Base in Wichita, Kansas.

Note: Prior Service may be exempt from Basic and Tech School – ask your recruiter.

About Basic Training and Tech School

Basic Military Training (BMT)

BMT is your initial training with the Air National Guard. We use the same Basic Training as the Air Force. BMT is approximately 8 ½ weeks. During this time, you will learn discipline, teamwork and the ability to pay attention to detail. You will be issued uniforms and learn how to properly wear them. You will spend time in the classroom learning about the history of the Air Force, Customs and Courtesies and the Uniform Code of Military Justice.

The training also includes physical fitness requirements. You will run and do calisthenics on a daily basis. You will go on a simulated deployment to a tent city where you will shoot the M-16 rifle, accomplish an obstacle course, and learn about chemical warfare and how to properly wear a chemical warfare suit. Throughout BMT you will also learn to march and practice drill and ceremony for your graduation parade.

Find out more at www.airforce.com/training/enlisted This is a great web site for BMT insight.

The Right People in the Right Places with the Right Skills.

Our number one goal is to provide the nation with professionally led and well-trained community based Airmen, armed with the skills and participation levels to contribute to the range of future federal, regional and state missions.

To that end we provide skills training in a wide range of disciplines necessary to our mission.

You'll also find that the training provided is interesting and personally satisfying, and many of the skills we teach will also benefit you in the civilian world as well, adding to your value to current and future employers.

Please use the following descriptions to give you an IDEA of what some of our positions are like. Your qualifications and our current job vacancies will determine the jobs you can choose from. Not all jobs may qualify for all incentives, your recruiter will discuss available incentives with you.

AEROSPACE CONTROL AND WARNING SYSTEMS – 1C5X1

MANDATORY ASVAB SCORE:
General Score – 55

Identifies, maintains surveillance, and assists in controlling aerospace objects. Operates aerospace control and warning systems equipment, and simulation equipment. Interprets and reacts to radarscope presentation and to generated console displays. Compares and reports track positions based on flight data or data base files. Assists in weapons control and performs surveillance, data link, identification, and data management functions in aerospace systems. Tears down, loads, unloads, and erects equipment and components. Performs as crew member of operational unit in functions of air weapons control. Responsible for safety of flight for air operations being controlled.

OTHER MANDATORY REQUIREMENTS:
Must be a US citizen
Physical Profile: 222111
Class length: 4.5 weeks
Location: Keesler AFB, MS

AEROSPACE MEDICAL SERVICE – 4N0X1

MANDATORY:
General Score – 44

Plans, provides, and evaluates routine patient care and treatment of beneficiaries to include flying and special operational duty personnel. Organizes the medical environment, performs and directs support activities in patient care situations, including contingency operations and disasters. Performs duty as Licensed Practical Nurse (LPN) independent duty medical technician (IDMT), aeromedical evacuation technician (AET), or hyperbaric medical technician (HBMT), allergy and immunization technician (AIT), or neurology technician (NT) functions.

OTHER MANDATORY REQUIREMENTS:
Normal color vision. Must be a US citizen
Physical Profile: 222221
Class length: 16 weeks
Location: Sheppard AFB, TX (Subject to change)

COMMUNICATIONS - COMPUTER SYSTEMS CONTROL 3C2X1

MANDATORY:
Electronic Score – 70

Monitors and controls C-CS performance. Operates processor assisted diagnostic and control equipment and software to perform network, technical, and configuration control, surveillance, and security. Monitors status and performance of transmission and switching systems, local and wide area networks, and subscriber equipment. Operates test equipment to verify end-to-end circuit system, and network signals meet minimum standards. Operates network management hardware and software to ensure compliance with security standards and service levels. Configures circuits, systems, and networks based on standards, traffic patterns, and results of quality assurance tests. Performs circuit, system, and network patching and cross connecting to establish, sustain, and restore service. Localizes failures, performs operational adjustments, and re-configures circuit, system, and network equipment. Fabricates copper and fiber optics cable assemblies. Operates cryptographic equipment to test, reset, and re-key.

OTHER MANDATORY REQUIREMENTS:
Must be a US citizen
Physical Profile: 333231
Class length: 16 weeks
Location: Keesler AFB, MS

COMMUNICATIONS - COMPUTER SYSTEMS OPERATIONS – 3C0X1

MANDATORY:
General Score – 64

Performs daily network management, control, and administration of information flow in Network Management (NM), Help Desk (HD), Information Protection Operations (IPO), and Network Administration (NA). Oversees network configuration, faults, performances, and security management through HD, IPO, and NA functions. Reviews and plans networks, controls distribution of Internet Protocol (IP) address space, and enforces Internet use policy. Implements Air Force Computer Emergency

Response Team and Automated Systems Security Incident Support Team security fixes, operating system patches, and antivirus software. Develops local restoral and contingency operations plans. Processes and reviews C4 systems requirement documentation, telecommunications service requests, status of acquisition messages, and telecommunications service orders. Performs strategic and budget planning for networks.

OTHER MANDATORY REQUIREMENTS:
Must be a US citizen
Physical Profile: 333231
Class length: 12 weeks
Location: Keesler AFB, MS

COMPUTER, NETWORK, SWITCHING AND CRYPTO- GRAPHIC SYSTEMS – 2E2X1

MANDATORY ASVAB SCORE: Electronic Score – 70

Plans, organizes and directs sustainment activities. Establishes work standards, methods and controls for preventative, scheduled, and unscheduled maintenance actions. Determines extent and economy of repair of malfunctioning equipment. Ensures compliance with technical data, instructions, and work standards. Interprets malfunctions and prescribes corrective action. Serves on, or directs inspection teams organized to evaluate base or command sustainment programs. Manages, or performs

research and development projects for assigned systems. Maintains, inspects and tests assigned systems. Coordinates with commercial service providers and depots to conduct tests of system components and assemblies to isolate faults. Removes, repairs, replaces and restores systems or subsystems.

OTHER MANDATORY REQUIREMENTS:
Normal color vision. Must be a US citizen
Physical Profile: 333233
Class length: 17.5 weeks
Location: Keesler AFB, MS

ELECTRICAL POWER PRODUCTION – 3E0X2

MANDATORY:

Mechanical Score – 56

Installs, removes, and operates electrical power generating and control systems, automatic transfer switches, aircraft arresting systems, and associated equipment. Checks equipment for serviceability. Positions equipment such as gasoline, and diesel engines; generators; switchgears; air compressors; and other power generating auxiliary equipment. Installs, positions, rewinds, and pretensions aircraft arresting systems. Certifies aircraft arresting systems as required. Checks installed equipment to ensure compliance with publications, policies, and directives. Inspects, tests, and services component systems such as safety, fuel, lubrication, cooling, air pressure, pumps, regulators, governors, and accessory equipment. Observes and interprets instruments such as ammeters, voltmeters, frequency meters, synchroscopes, automatic temperature and pressure recorders, and engine oil, fuel, and coolant gauges. Adjusts engine generator systems to maintain proper voltage, current frequency, and synchronization. Synchronizes multi-generators. Operates high and low voltage switches, circuit breakers, rheostats, and other controls on switch-gear and distribution panels. Performs electrical power control and distribution functions.

OTHER MANDATORY REQUIREMENTS:

Normal color vision. Must be a US citizen

Physical Profile: 333223

Class length: 11 weeks

Location: Sheppard AFB, TX

ELECTRICAL SYSTEMS – 3E0X1

MANDATORY:

Mechanical Score – 35

Installs, maintains, and repairs energized and de-energized electrical distribution systems and components. Installs, maintains, and repairs interior, exterior, overhead, underground electrical power distribution systems and components such as capacitor banks, vacuum and air break switches, breakers, transformers, fuses, lighting fixtures, receptacles, and motors. Climbs utility poles and operates special purpose vehicles and equipment, including line maintenance and high

reach trucks to inspect, maintain, and repair overhead distribution systems. Inspects power-line poles for pest damage, deterioration, and loose hardware. Inspects, tests, and services overhead line conductors and direct buried cables, and those in underground ducts and conduits. Troubleshoots malfunctions using technical orders, manufacturers' handbooks, local procedures, codes, and directives. Tests air samples in man-holes for dangerous concentrations of combustible or toxic gases and oxygen deficiency.

OTHER MANDATORY REQUIREMENTS:

Normal color vision. Must be a US citizen

Physical Profile: 111221

Class length: 19.5 weeks

Location: Sheppard AFB, TX

GROUND RADAR SYSTEMS – 2E0X1

MANDATORY ASVAB SCORE:

Electronic Score – 70

Installs, maintains, and repairs fixed or mobile air traffic control, weather, ground aircraft control and warning radar systems, related radar operator training devices, aircraft identification equipment, remoting systems, video mappers, computerized processors, and communications subsystems. Operates and relocates related support, and communications equipment. Uses electronic test equipment.

OTHER MANDATORY REQUIREMENTS:

Normal color vision. Must be a US citizen

Physical Profile: 333232

Class length: 19.5 weeks

Location: Keesler AFB, MS

HEATING, VENTILATION, AC, & REFRIGERATION – 3E1X1

MANDATORY:

Mechanical Score – 47

Installs and operates HVAC/R systems and equipment. Interprets drawings and schematics, and installs HVAC/R components. Installs, repairs, fabricates, and tests piping and tubing systems. Installs, connects, troubleshoots, and maintains HVAC/R controls. Tests HVAC/R equipment for proper operation. Balances air and water in HVAC systems. Monitors systems operation to ensure efficiency and compliance technical orders, manufacturer handbooks, local procedures, codes, and directives. Evaluates water treatment for heating and cooling systems. Ensures compliance with safety and environmental regulations for fuels, refrigerants, and hazardous materials.

OTHER MANDATORY REQUIREMENTS:

Normal color vision. Must be a US citizen

Physical Profile: 333223

Class length: 19.5 weeks

Location: Sheppard AFB, TX

IMAGERY ANALYST – 1N1X1

MANDATORY ASVAB SCORE:

General Score – 66

Exploits and analyzes multi-sensor imagery in conjunction with all-source intelligence information. Determines type, function, location, and significance of military facilities and activities, industrial installations; and surface transportation networks. Determines type, function, and location of military equipment including ground, air, naval, missile, and electronic orders of battle. Uses multi-sensor imagery to conduct comparative analysis. Analyzes terrain to determine traffic ability, and identify landing zones and defensive fortifications. Analyzes structures of military and industrial installations to determine construction type and functionality.

OTHER MANDATORY REQUIREMENTS:

Normal color vision and depth perception must be eligible for a Top Secret

Security clearance. Must be a US citizen

Physical Profile: 333231

Class length: 24 weeks

Location: Goodfellow AFB, TX

INFORMATION MANAGEMENT– 3A0X1

MANDATORY:

Admin Score – 28

Performs, supervises, or manages a variety of communications and information management (IM) tasks and activities including staff support, publishing, records, administrative communications, and workgroup management (information systems and technology support).

OTHER MANDATORY REQUIREMENTS:

Normal color vision.

Must be a US citizen

Physical Profile: 333233

Class length: 7.5 weeks

Location: Keesler AFB, MS

MUNITIONS SYSTEMS – 2W0X1

MANDATORY:

Mechanical Score – 60
OR General Score – 57

Performs and manages munitions production and materiel tasks and activities. Identifies munitions and equipment requirements. Operates and maintains automated data processing equipment (ADPE) to perform munitions accounting, computations, and research. Stores, maintains, assembles, issues, and delivers assembled non-nuclear munitions. Routinely demilitarizes nonhazardous munitions. Operates and maintains munitions materiel handling equipment (MMHE). Develops and implements munitions materiel management concepts and procedures. Complies with

explosive, missile, and ground safety, security, and environmental directives and practices. Identifies munitions by filler, color code, marking, or physical characteristics. Receives, stores, handles, and transports nuclear weapons.

OTHER MANDATORY REQUIREMENTS:

Normal color vision and depth perception. Must be a US citizen
Physical Profile: 333231
Class length: 9 weeks
Location: Sheppard AFB, TX

NETWORK INTELLIGENCE ANALYSIS – 1N4X1

MANDATORY ASVAB SCORE:
General Score - 62

Performs detailed analysis to reveal target network communications nodes, structures, operating procedures, and mediums for additional exploitation. Recovers, correlates, and fuses technical, geographical, and operational intelligence information. Recognizes and exploits intelligence information. Author's time-sensitive intelligence reports in accordance with established guidelines for U.S. war fighters and national decision makers. Produces, analyzes, studies, researches, fuses, and correlates intelligence for strategic, operational, and tactical customers.

Provides target geopolitical and operational intelligence to national agencies and military command authorities. Identifies and disseminates real-time threat warning information.

OTHER MANDATORY REQUIREMENTS:

Normal color vision and depth perception. Must be eligible for Top Secret Security clearance. Must be a US citizen
Physical Profile: 333221
Class length: 18.5 weeks
Location: Goodfellow AFB, TX

OPERATIONS INTELLIGENCE – 1N0X1

MANDATORY ASVAB SCORE:
General Score - 57

Develops mission planning and execution support materials. Assembles maps,

charts, and target materials. Prepares strip charts and annotates navigational information. Collates intelligence and operations materials, and assembles final product for mission briefing, study, and use. Compiles, segregates, evaluates, researches, interprets, analyzes, and disseminates intelligence information. Analyzes intelligence to support operations and targeting. Uses intelligence automated data systems to store, retrieve, display, and report intelligence information. Establishes intelligence collection requirements.

OTHER MANDATORY REQUIREMENTS:

Normal color vision and depth perception. Must be eligible for Top Secret Security clearance. Must be a US citizen
Physical Profile: 333231
Class length: 22 weeks
Location: Goodfellow AFB, TX

PAVEMENTS AND CONSTRUCTION EQUIPMENT -3E2X1

MANDATORY: Mechanical Score – 40

Constructs and maintains concrete and asphalt runways, aircraft parking aprons, and roads. Operates and maintains heavy construction equipment, such as, loaders, graders, dozers, backhoes, and dump trucks. Operates tractor-trailer combinations, transporting construction equipment, and materials. Ensures compliance with all safety and environmental regulations. Plans, constructs, and repairs airfield pavements, roads, streets, curbs, surface mats, membranes, and other improved areas using paving and surfacing procedures. Takes soil, aggregate, asphalt, and concrete samples for laboratory tests. Interprets construction drawings and surveys using information such as subgrade contours and grade alignment. Inspects pavements for surface, base, and sub-base damage or defects. Repairs damaged or defective areas by removing and replacing joint and crack sealant, surface overlays, and seal coats. Determines material and equipment requirements and prepares cost estimates for construction activities. Provides erosion control.

OTHER MANDATORY REQUIREMENTS:
Normal color vision. Must be a US citizen
Physical Profile: 333221
Class length: 9.5 weeks
Location: Fort Leonard Wood, MS

SATELLITE, WIDEBAND, AND TELEMETRY SYSTEMS – 2E1X1

MANDATORY ASVAB SCORE:
Electronics Score – 70

Manages satellite systems maintenance activities. Installs and checks operation of wideband and satellite earth terminal communications systems. Manages, installs and checks the operation of instrumentation and telemetry activities. Establishes performance and production standards and work methods. Determines extent and economy of repair for malfunctioning equipment. Recommends methods to improve equipment performance and maintenance procedures. Prepares reports related to operating, installing, repairing, maintaining, and evaluating equipment. Analyzes data printouts and recordings to determine marginal or faulty equipment operation. Evaluates justification and practicability, and recommends corrections to improve equipment performance or maintenance procedures. Assists agencies to conduct research and development projects associated with aerospace systems equipment. Assembles, programs, adjusts, and secures system components. Employs orbiting communication satellite, line-of-sight, and tropospheric scatter techniques. Conducts tests to restore and maintain systems. Uses anti-jam equipment and techniques to neutralize effects of communication jamming. Provides technical and design support assistance, solves problems for test site and operation, and maintenance functions. Develops and enforces safety rules.

OTHER MANDATORY REQUIREMENTS:
Must be a US citizen
Physical Profile: 333233
Class length: 8.5 weeks
Location: Keesler AFB, MS - Fort Gordon, GA

SECURITY FORCES APPRENTICE – 3P0X1

MANDATORY ASVAB SCORE:
General Score – 33

Security Forces personnel learn life-saving procedures; provide armed response; direct vehicle and pedestrian traffic on base; operate speed measuring, drug, alcohol and breath test devices; and conduct investigations. You will be involved in team patrol movements, tactical drills, battle procedures, and military operations other than war. You might also be apprehending and detaining suspects, securing crime scenes or testifying in judicial proceedings.

OTHER MANDATORY REQUIREMENTS:
No recorded history of emotional instability or personality disorder.
No fear of guns.
Must be a US citizen
Physical Profile: 222121
Class length: 13 weeks
Location: Lackland AFB, TX

STRUCTURAL – 3E3X1

MANDATORY:

Mechanical Score – 47

Prepares and interprets working drawings and schematics for maintaining, altering, and repairing buildings and structures. Surveys proposed work sites to determine material and labor requirements. Prepares cost estimates. Reviews structural work progress and coordinates changes in schedules. Constructs and repairs footings, floors, slabs, foundations, walls, roofs, steps, doors, and windows for prefabricated and permanent structures. Constructs and modifies buildings. Prepares, applies, and finishes mortar, concrete, plaster, and stucco. Fabricates, repairs, and installs metal parts and assemblies for utility systems and buildings.

OTHER MANDATORY REQUIREMENTS:

Normal color vision. Must be a US citizen

Physical Profile: 333223

Class length: 19 weeks

Location: Gulfport, MS

UTILITIES SYSTEMS – 3E4X1

MANDATORY:

Mechanical Score – 47

Installs and operates plumbing, water, wastewater, fire suppression and backflow prevention systems and components. Monitors systems operation to ensure efficiency and compliance. Ensures compliance with safety and environmental regulations for hazardous materials. Installs and operates field potable water treatment equipment. Maintains, inspects, and repairs plumbing, water, wastewater, fire suppression and back-flow prevention systems, and components. Performs inspection, recurring maintenance, and seasonal overhaul on systems and components. Troubleshoots malfunctions. Uses drawings and schematics to analyze and isolate system malfunctions. Removes, repairs, and replaces defective components. Modifies equipment for specific missions or to increase efficiency. Locates and determines quality and quantity of water sources.

OTHER MANDATORY REQUIREMENTS:

Normal color vision. Must be a US citizen

Physical Profile: 333223

Class length: 10 weeks

Location: Sheppard AFB, TX

TECH SCHOOLS NOTE:

Tech schools are controlled by the United States Air Force and the class lengths of the schools and locations are subject to change.

YOUR JOB IS SECURE!

Employer Support of the Guard and Reserve (ESGR) is a Department of Defense organization. ESGR has a national network of over 900 volunteer ombudsmen who help resolve issues between employers and their employees who serve in the National Guard and Reserve. These volunteers, each of whom receives extensive training on USERRA and dispute resolution techniques, serve as informal mediators between the employer and employee and inform and educate the employer and employee on what the law requires and assist in finding a mutually agreeable solution.

ESGR Ombudsmen are a resource for employers and members of the National Guard and Reserve, and can be reached via e-mail at:

USERRA@osd.mil or at (800) 336-4590.

Mission - We will gain and maintain employer support for Guard and Reserve service by recognizing outstanding support, increasing awareness of the law, and resolving conflicts through mediation.

Vision - Develop and promote a culture in which all American employers support and value the military service of their employees.

Customers - Employers and National Guard and Reserve members.

A Uniformed Service Member has rights under the Uniformed Services Employment and Reemployment Rights Act (USERRA), Title 38, Chapter 43, United States Code.

Your Rights include:

- Military leave of absence (up to five years of voluntary service)
- Prompt reinstatement back into your job
- Accumulation of seniority and pension plan benefits
- Reinstatement of health insurance, regardless of pre-existing conditions

- Training or retraining of job skills, including accommodations for disabled
- Protection against discrimination

Your Responsibilities Include:

- Before Reporting for Duty: Provide prior notice to employer (preferably in writing)
- While Performing Duty: Serve under honorable conditions
- After Release from Duty: Return to work in a timely manner

Reemployment Timetable:

- Less than 31 days of service - Report next work day after safe travel home and 8 hours of rest
- 31-180 days of service - Apply for reinstatement within 14 days of release from active duty
- Over 180 days of service - Apply for reinstatement within 90 days of release from active duty

How to Resolve an Employment Issue:

- Inform your unit/military chain of command
- Contact Employer Support of the Guard and Reserve (1-800-336-4590, ncesgr-ombud@osd.mil or www.esgr.org)
- If not resolved, contact the Department of Labor (1-866-4-usa-dol or www.dol.gov/vets)
- You may consult a private attorney, however at your own expense, which precludes ESGR assistance

How to Recognize a Supportive Employer:

- Nominate them for an award from ESGR
- Go to the ESGR web site at; www.esgr.org
- Click on 'Military Members' and then 'Patriot Award'
- Fill out and submit the Patriot Award nomination form online
